COMMENTS:

I would like to know if there is talk about any benefits to the community. Such as a Freight Line or passenger line being able to be ran with this. All communities will benefit from having more than just vehicle access to Tonopah & Goldfield. and it would be easier to ship items from Vegas. if something like this is not atleast concidered then I don't see a real benefit to the community and see no point to people just accepting it. please write me back personally or send me some contact numbers so I can make sure this idea is heard.

Please note: Your comment(s) must be received by the Department of Energy by June 1, 2004 to be considered. Comments received after the close of the comment period will be considered to the extent practicable.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so the address and postage-paid notice are visible, then secure with tape.

Please feel free to attach additional pages (if mailing, more postage may be needed).
